

HC-1501 Hedge Cutter

The HC-1501 features adjustable cutter clearance

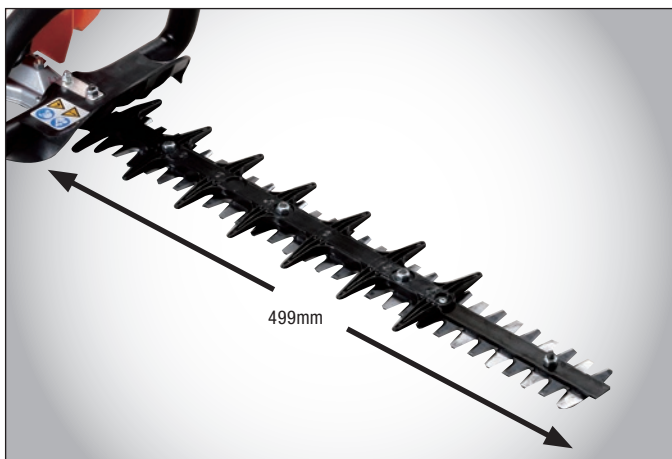

ECHO's HC-1501 is a 21.2cc twin blade hedge cutter. It features laser cut double reciprocating blades for long lasting sharpness, and has an effective cutting length of 499mm.

The HC-1501 is lightweight and extremely well balanced, ideal for homeowners and light-use professionals.

A superior directional exhaust protects both the user and the hedge from hot exhaust gases, preventing scorching and discolouration of the foliage. A vertical fuel filler neck allows for easier refuelling.

The HC-1501 features a vertical fuel filler neck for easier re-fuelling

FEATURES

BENEFITS

Laser cut and precision ground blades

✓ Long lasting sharpness

✓ 35mm blade pitch for tackling a variety of different hedges

Double reciprocating blades

✓ Provide a cleaner cut

✓ The blades are self-sharpening because of the action of the teeth

Superior exhaust system

✓ Exhaust emissions are directed away from user. This also prevents scorching and discolouration of the hedge

✓ Fully enclosing cover prevents the user from touching hot exhaust

Air filter system

✓ Easy, tool-free access to air filter, even when wearing gloves

Lightweight and well balanced

✓ Comfortable to operate for extended periods

Vertical fuel filler neck

✓ Enables easier re-fuelling

¾-length blade guard

✓ Helps protect user from accidental contact with blades

Use ECHO products with ECHO's own high quality blend oils, for maximum performance

Extensive warranty

ECHO power tools come with a **five year domestic warranty** or a **two year warranty** in professional use. For the domestic user there is the total reassurance of using equipment designed and built for professionals, and a five year warranty offers even greater peace of mind (registration of ECHO products and servicing are necessary to validate the warranty).
