About Us

Our Roots

GGM Groundscare are a specialist supplier of tractors, high quality professional groundscare machinery and after-sales support, dedicated to meeting the long-term requirements of our customers.

Our long-standing partnership with Kubota extends over 40 years, during which time we have established ourselves as a leading Groundscare Machinery provider throughout the North-West of England and Yorkshire. Driven by a set of deep-rooted values, all staff at GGM take pride in building and nurturing customer relationships based on anticipating needs, problem solving and delivering on time, every time.

Whether your requirement is for sales, hire, spare parts or service – **everybody at GGM is ready to help.**

Hire Solutions

Finding an affordable solution is important now more than ever. GGM make this easier by complementing direct sales with a range of attractive and flexible hire packages. Customers can operate machinery at a fixed cost with the full support of the GGM service team. Whether you're looking for an individual mower or a full fleet of equipment, GGM tailored hire packages are available for fixed term periods to meet a customer's general requirement or to complete a specific one-off contract.

Quality & Environment

Quality standards, personal safety and care for the environment are important to us all. At GGM, we are proud to be ISO9001 registered, ensuring that our customers receive the highest level of service and quality of products through our continual satisfaction programme. We manage health and safety requirements responsibly and we have achieved full accreditation under the CHAS contractors scheme. Additionally, looking after our environment is something that we take very seriously and we're continuously looking for ways to reduce waste and recycle.

Professional.  Ready to provide a flexible cost effective solution.

Innovative New Equipment

GGM offer a comprehensive range of Groundscare equipment from leading manufacturers that can be tailored to a customer's specific needs to provide a complete solution, in every environment.

From across our range, customers have access to high-performance equipment that has been designed to increase productivity, fulfil a range of tasks, transform the way you operate and help protect the environment.

 **Kubota**

When it comes to a winning combination of performance, versatility, value and durability, Kubota are the recognised name. Offering a comprehensive range of sub-compact to full-size tractors, mowers that will make light work of any mowing requirement and a range of RTV's providing a rugged, versatile, all-terrain vehicle that delivers outstanding performance.

 **DENNIS**

Dennis offer a range of cylinder mowers and grounds maintenance equipment enabling groundsmen, greenkeepers and gardeners to create the perfect surface. Due to the quality of their products and excellent aftersales service you'll find them in use at many top football, cricket, golf and bowling clubs.

 **sisis**

As a leading manufacturer of turf maintenance machinery for natural and synthetic surfaces, SISIS offer a comprehensive range that includes rakes & brushes, scarifiers and slitters. Their quality and reliability sees the range currently being used at some of the major sports venues throughout the world.

 **MAJOR**

The Major range of roller mowers, flail collectors and grass toppers are some of the most efficient and productive available. Providing an uncompromising cut that satisfies demanding budgets, Major have a solution for your maintenance needs.

 **TORO**

As a pioneer of the rotary lawnmower, Toro LCE are market leaders in producing innovative premium quality lawn care products that are renowned for their reliability. Additionally Toro Siteworks offer a range of robust, high quality solutions that install underground utilities and excavate and move materials in confined spaces.

 **AMAZONE**

With a product range that offers solutions for all seasons, encapsulated by the Amazone Profihopper that allows customers to clear leaves in autumn, tidy up spring bulbs, and mow and collect the grass, scarify, and collect litter throughout the year.

Progressive.  **Ready to deliver innovative solutions.**

AS
MOTOR

Whether you're mulching high grass, shredding dense scrub or mowing and mulching on steep slopes AS Motor have a solution. Offering an innovative blend of experience and engineering with a mower convenient for every need and every type of lawn, each machine mirrors the AS Motor tradition and passion: 'To perfect perfection.'

Kawasaki

Professionals count on Kawasaki's Power Products to undertake a wide range of specialist grounds-care and maintenance duties and over the years have become a firm favourite within the working markets.

Husqvarna

As the world's largest producer of outdoor power products (and a research and development team that's the envy of the industry) they're the go-to brand for hedge trimmers, blowers, strimmers, chainsaws, pedestrian- and ride-on mowers.

KÖPPL

Köppl machines are designed for the professionally minded. They have many design characteristics to ensure safer working practice and to provide higher levels of comfort and it is this attention to detail that makes Köppl machines so hugely popular.

ELIET

Over the last 30 years, Eliet has grown to be a leading manufacturer of machinery for green waste recycling, lawn and turf care, debris clearing and snow removal and are recognised as a leading innovator in the market.

TS INDUSTRIE

TS Industrie produce two ranges of machines: Green Series – multi-vegetation shredders with patented mixed rota combining blades and hammers. Wood Series – chippers which come equipped with cutting disc technology to ensure an even chip size. With TS there is a solution for any shredding or chipping requirement.

Proactive.  Ready to help you reduce machine downtime.

Professional Service & Parts

GGM provides a responsive and reliable service offering to all our customers and contracts from our large state-of-the-art service and maintenance workshops in Colne and Haydock.

Online Parts Ordering Available

Supported by our own fleet of mobile service vehicles to allow for on-site servicing and repairs, all of our experienced technicians are factory trained by our manufacturers to ensure our skill levels are maintained to enable us to continue to meet the changing demands of our marketplace. We aim to provide cost effective, reliable and flexible service support that is individually tailored to meet our customer's needs while ensuring we continue to provide the best value for money.

We offer either a call-out service as and when required, or a full contract offering, which is the assured way to guarantee continuous operation and limit your equipment downtime.

GGM are delighted to have been recognised as offering one of the best levels of service out of almost 100 outlets selling Kubota products across the UK, and have been awarded the Kubota Gold Service Dealer Award.

Parts Support

With a team of experienced and knowledgeable staff, GGM provide reliable and consistent parts support on an ongoing basis, whilst at the same time having the ability to react quickly to minimise customer downtime. With a large stockholding of spare parts, we are able to ensure that customer orders are dispatched quickly and efficiently and all orders received before 3pm that are in stock are dispatched for next day delivery.

Fixed Price Contracts

Our Service Contracts offer you the convenience of on-site periodic machinery servicing. Each service includes oils, filters and all inspections / adjustments

recommended in the operation manual for the equipment being serviced. Each Service Contract is designed for your specific needs so as to maintain your equipment in an optimum condition. This minimises any downtime at a known fixed cost, thereby resulting in extending the working life of your equipment and enhancing its resale value.

Blade Grinding and Sharpening

We also offer a professional sharpening service, so whether you're looking for mower blade grinding or chainsaw sharpening, we provide first class sharpening all done on-site, ensuring your equipment continues to offer you the best possible performance time after time.

HAVS Testing

Our 'in-field' testing of equipment whilst in use provides accurate and reliable information about hand-to-arm vibrations levels that are being experienced by your workforce. Any equipment that falls above the level set by the manufacturer will be serviced whilst on site.

Proven.  Ready to deliver a trusted service.

Our new modern premises in Haydock are now fully operational. Ideally located just a few minutes off junction 23 or 24 of the M6, servicing and supporting customers in Cheshire, Greater Manchester & Merseyside. The exciting development builds on our existing operations covering Yorkshire and Lancashire from our depot in Colne. So wherever you are across the North West & Yorkshire, we are here to help.

Whether you're a new or existing customer, whatever your Groundscare machinery and service needs; you'll find exactly what you're looking for at GGM.

Where To find Us

Our modern facilities are designed to provide customers with an excellent environment to evaluate a range of new and innovative equipment, as well as access to one of the most comprehensive stocks of spare parts and accessories in the region. In addition, our customers have the opportunity to utilise our award winning service team of experienced manufacturer trained technicians.
